STATUS REPORT
JUNE 1994
STEELCOTE FACILITY
ST. LOUIS, MISSOURI

PLANNED ACTIVITIES

No site activities were planned for June, 1994.

ACTUAL ACTIVITIES

No site activities were conducted during June, 1994. Addendum #3 was approved by EPA subject to the addition of several analytical parameters. Bid and specification packages were submitted to drillers and laboratories. Discussions with drillers have revealed that, because of the backlog of work and general reduced availability of Missouri-licensed drillers, it is unlikely that the drilling and well installation work will begin until the first or second week of August.
